## Report on the audit of the accounting for 2012 for The European Council on Chiropractic Education

Mr. Markus Fechner, D.C., Treasurer of The European Council on Chiropractic Education, delegated the task of auditing the accounting of the council for the year 2012 and to submit a brief report covering the audit.

I have audited the accounts in accordance with legal regulations as well as the applicable statutes of the council decree.

The audit was documented by bank account statements, receipts and invoices as well as the council decree.

The audit was performed in my offices, where this report was also written. Mr. Markus Fechner provided me with all the necessary information.

The result of my audit led to no objections of any of the transactions.

The business transactions were complete and correct. There were bank receipts and records for all transactions. All bank transactions have been input into the profit and loss statement correctly.

Mannheim, Juli 23, 2013
